

Genesis

**Your self-certification
in trusted hands!**

Do you export goods abroad?

Do you find it difficult to self-certify
the origin of the product
you are exporting?

**Genesis,
a digital platform initiated
by the International Chamber
of Commerce, is here to help you
verify your self-certification**

How does it work ?

- ✓ Apply online through your chamber of commerce
- ✓ Declare the preferential origin on your declaration invoice
- ✓ Your chamber certifies the invoice declaration and the preferential origin
- ✓ Receive the certification on your invoice declaration
- ✓ Enables importing Customs or the importer to check the declaration
